Some Champions Who Came Back.

Those of us who are familiar with modern fistic history can recail how Jem Hail defeated Bob Fitzsimmons at Sydney. N. R. W., in 1836, the year that Fits came to the United States. It was a four round affair and Eob always claimed he haid down to Hail, in order to get a little coin to pay his way to this sountry.

However, I don't wish to go into the question of this being a fake or fair battle, for it goes on record as a defeat for Fits. In 1831 Bob and Jem met before the Olympic A. C. of New Oriesins and Hail was quite a favorite in the betting. Fits showed he was the master on this occanion by putting Hail out in four rounds.

We can also remember how Billy Papke knoked out the immortal Stanley Ketchel, in 12 reunds on Sept. 8, 1968, at Los Angeles, and claimed the middleweight title, but he only held the crown for about a menth, for Ketchel put Papke knoked out the type peak moon at San Francisco.

On Dec. 20, 1994, James Edward Britt fisfeated Rattling Nelson in a 20 round contest, but the next year Nelson K. O. Britt in 18 rounds at Colma, Calif, So that squared account for the Battler with Britt.

Freeddy Welsh was defaited by Matt Wells in London, Eng. in 1911, in a 20 round combal. The next year they met again at the same place and Wellsh was awarded the decision and the lightweight championship of England after 20 scientific records.

I only die these few mills to show how titles and honors may change about between dever hoxers who are very evenly matched, One K. O., in my opinion, does not always prove that the very reven who is the better man.

AND TIPS HIS SIGNALS

Charley Dooks tells a story which rangive an insight into the "dignal tipping" which we fans read so much about. It indicates hew a tittle observation may help a hell club. It shows that it is not necessary for a wise team to have a fellow with a field glass in center field in know when in swing us a fast one and when to watch the curry floor outside the plate.

The Phillies were playing in a western city one day and a young catcher was behind the pinte for the opposing club.

Umpire Quigley chased eight fireyes from the field, the men coming under his displeasure being Rudoiph, Mitchell, Evers, James, Strand, Whalins, Connelly and Maran. The Cardinals are climbing and, by taking advantage of two Brooklyn errors, they wen Tuesday's game, 4 to 2. The Dodgers feund Silm Salies for four hits in the first two lunious Sallee then seitled down and allowed two life during the remainder of the same.

Sorrow One Vanity Common to Humanity

ATTORNEY GENERAL NAMES AUSTIN MAN SPECIAL AGENT

Austin, Tex., June 18.—Attorney general Leconey has appointed B. V. Nichola, et Austin, special agent for the autorney gen-cra's department. This is a new position, having been created by the legislature at the special session, and pays \$1800 a year.

NORWEGIAN SHIP TORPEDOED

THERE is a certain universal vanity of character and the development of in all human beings—the vanity of sorrow.

Ask any one of your acquaintances if he has had trouble in life, and, almost to a man, the repty will be to the effect that his sorrows and trials have been unusual; that he has had he we appelled the resurrection—Copy—

been unusual; that he has had his share; which will mean that he feels to has more than his share.

In country places, in large cities, in villages, it is the same.

It seems to be a part of human consciousness—this helief that each one of us has been chosen for a special dispensation of morrow.

Austin, Tex., June 18—Atto Leoney has appointed in V.

Value of Trouble Unappreciated.

Value of Trouble Emappreciated.

Only a small percentage of human beings place the true estimate on the value of trouble, or know that it has its place, as machinery, in the apiritual symmashum, and that by our ability to use it we may develop character—the purpose, aim and end of existence.

Only one individual do I recall having met in all my experience who made no claim of sorrow.

It was a woman who had counted at least four decades on the dial of life, and she told me she had never known a disappointment or a sorrow; since her birth she had indulged all her wishes; she had never lost a near relative or friend, and had never known a grief worthy of the name.

A shallow woman she seemed to me as I studied her—see who enjoyed her morning ouffee and her dinner at night; who was pleased with a new gown and brooch, and who felt no strong affections and was incapable of deep emetion. Perhaps she had passed through experiences which might have meant serrow to others without feeling them, and, having missed sorrow, so, too, the mist have missed great joy.

Surely she was no personage to hold as an ideal, and those who believe they could have attained large successes or great heights. If they had not known sorrow, would have found in her refusitation of their theories.

The mortal must feel in order to develop.

Must Know the Emotions.
